

Mesh & Rebar

We hold stocks of Reinforcing Mesh in the standard sheet size of 4.8m x 2.4m which equates to 11.52 sq metres. D49 is known as a “wrapping” mesh due to its thin wire. Reinforcing bars, either plain or ribbed are standard 6 metre stock bars. All of our mesh and rebar can be collected or we can deliver.

Reinforcing Mesh

Type	Nominal Pitch of Wires		Size of Wires	
	Main mm	Cross mm	Main mm	Cross mm
A142	200	200	6	6
A252	200	200	8	8
A393	200	200	10	10
D49	100	100	2.5	2.5

Reinforcing Bar

Size	Weight per Kg
T6 / R6	0.220
T8 / R8	0.400
T10 / T12	0.890
T16 / R16	1.580
T20 / R20	2.470
T25 / R25	3.850

Other sizes are available, please contact us for further details.
All of our steels are sold to your required length, 100 metres or 100 millimetres!
